Craig Stubbings
Regional Director
Parks Victoria
Bendigo

Dear Mr Stubbings,

I write in reference to a recent spate of rubbish dumping at Kalimna Park Castlemaine. A photo is attached of a couch dumped near the Bicentennial plaque, opposite Kalimna Point. This has been a favoured dumping spot in recent years.

My question is: could Parks Victoria consider closing off the access track to this point? Moreover, could Parks consider closing access to other pullover areas along the tourist road? It seems to us that some at least of these access points serve no practical purpose, and that their closure would save Parks a bit of money in cleanup costs over a number of years.

Sincerely

Naomi Raftery
FOBIF Secretary
