

Have you seen this plant?

Would you like to learn how to look after this unique and rare plant found in your local region?

Join ecologist Georgie Custance from the Threatened Species Conservancy, and local field naturalist and Landcare member John Walter, to learn more about a locally endemic and amazing plant, the Fryerstown Grevillea (*Grevillea obtecta*). Learn how to download and use a threatened plant monitoring app on your smartphone or tablet and then enjoy a walk in the bush to visit some local populations of this wonderful species. We hope to see you there to learn how you can contribute the crucial monitoring and conservation of a rare plant that is thriving in your neighbourhood.

When: 1:30pm, Saturday March 12th

Where: To be confirmed
